

Garden Ponds and Structures, Tub Gardens, Gazebos, and Xeriscaping

This is a self-paced course with continuous enrollment

\$20.00

Have you ever attended your community's Home and Garden Show and thought, "If only my garden looked like this!" Well it can, and you can do much if not all of it yourself. Garden ponds, waterfalls, and fountains are simpler to add to a garden than you might imagine. Likewise, if your patio needs a roof, or you desire a gazebo, arbor or pergola, those too are achievable dreams for the do-it-yourselfer. Even if you live in a condominium or apartment, you can have a container garden on your deck or in your living room. And if you live in a very dry climate where water is scarce your garden doesn't need to look like the Sahara Desert. Instead, consider xeriscaping.

Wherever you live and whatever the season, it is never too early or late to begin planning additions to your garden. This course will outline how to design and build a garden pond, waterfall, fountain, gazebo, tub garden, or other structure. It also offers information on the types of plants suitable for various situations. It is the ideal course for those who want to improve their garden – whether they wish to do the work themselves or hire someone to do it for them. It provides a wealth of ideas and tips to help transform a plain yard into the garden of your dreams.

The course will deal at length with the following Topics:

- Lesson 1 - Garden Pools
- Lesson 2 - Garden Fountains
- Lesson 3 – Waterfalls & Streams
- Lesson 4 - Water Gardens
- Lesson 5 – Goldfish & Koi
- Lesson 6 - Building Your Pool
- Lesson 7 – Tub & Container Water Gardens
- Lesson 8 – Xeriscaping
- Lesson 9 – Gazebos, Pergolas, & Arbors
